

CONGRATULATIONS!

Like thousands of new Display owners around the world, you now own the highest quality portable/modular display. Your FabLite display is specially designed to give you the ultimate in versatility. The frame system integrates to meet your growing exhibit demands. And your 100% satisfaction is guaranteed.

The Lifetime Warranty

Your FabLite frame is guaranteed for life. If it ever fails to function it will be repaired free of charge for as long as you own it. Be sure to complete and return the enclosed warranty card immediately.

Made to Last

Superior in design and strength, your FabLite Display is built in manufacturing plants in the U.S. We use only premium grade materials and take pride in maintaining the highest standards of craftsmanship. Your display is delivered to you packed for maximum protection and quick assembly.

We Care, Please Recycle

All aluminum frames and cases can be recycled.

We recommend that you assemble and repack your display prior to your first event. It is important to follow each step in the order indicated.

Note: Scan the QR code to download extra copies.

TABLE OF CONTENTS

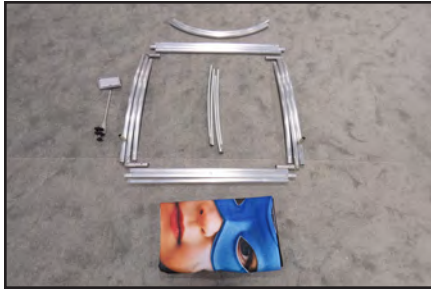

Setup Instructions

□ 10' Vertical Curve 2

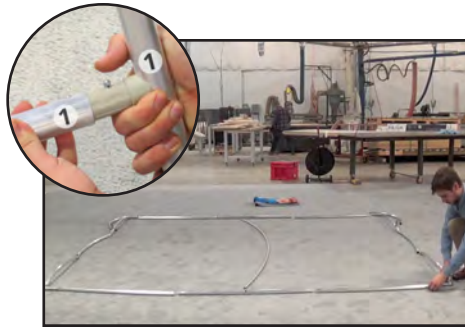

Notes

□ Additional Notes..... 4

Lay out all parts.

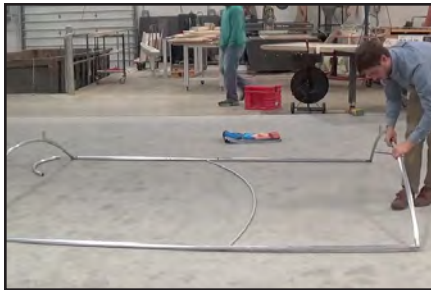

Align like numbers in sequence. Align #1 to #1 and #2 to #2 and so on.

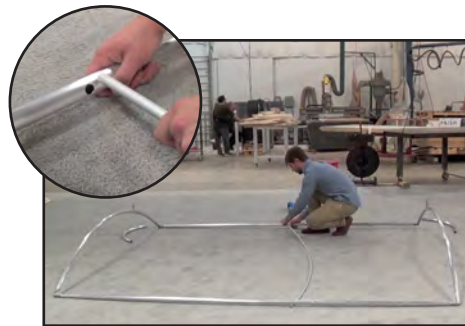

Insert tube until button lock engages.

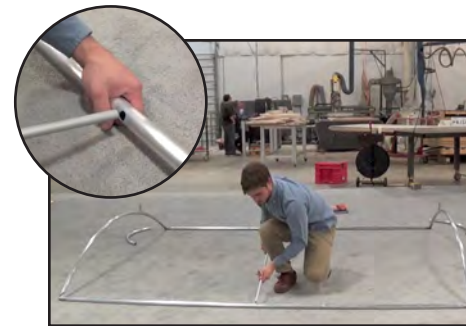

Insert the next tube until button lock engages.

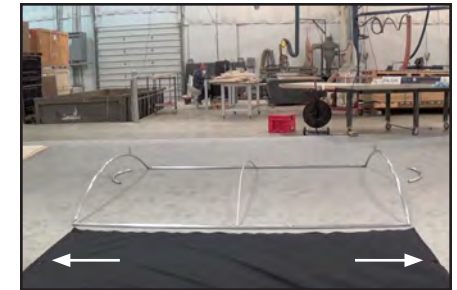

Continue connecting tubes engaging all button locks. Frame will curve on each side.

Insert support pole into hole at the BOTTOM of the frame.

Insert support pole into hole at the TOP of the frame.

Graphic goes on face-down, holes for foot tube connection will be face-up. Begin at the TOP of the frame.

Slide graphic over the frame.

Carefully slide graphic over the button lock for the foot. Insert button lock through the hole on the back of graphic.

Zip the graphic at the BOTTOM.

Insert foot tube onto button lock until button lock engages. Repeat for the other foot.

Note: Use drop cloth and gloves provided in CAREKIT to prevent soil to graphic.

Revised: 1/30/17

Attach lighting. Tighten clamp to secure lighting.

Insert power cord.

Lift the display.

Your FabLite Vertical Curve display is complete.

Note: Use drop cloth and gloves provided in CAREKIT to prevent soil to graphic.
