

# CROWN GAZEBO TOP (10% SCALE)

## ARTWORK TEMPLATE

HOW IT WORKS

## ARTWORK PLACEMENT & MEASUREMENTS

### BLEED AREA (CUT SIZE) —

**OUTERMOST BLACK SHAPE** » 66.5" WIDE X 52.5" TALL

To prevent any unwanted white border from showing at the Top Panel edges, be sure to extend background colors and/or design elements to this guideline.

### VIEWABLE AREA (FINISHED SIZE) —

**LIGHT GRAY SHAPE** » APPROXIMATELY 64.75" WIDE X 50.75" TALL

This guideline shows you approximately what will be seen once the vinyl has been sewn.

### EDGE OF STITCHING —

**GRAY DASHED LINE** » APPROXIMATELY 63.75" WIDE X 49.5" TALL

This guideline is to show you approximately where the seam will be sewn onto each top panel. The vinyl this is printed on is stretchy and hand sewn, therefore, this line may vary. All important elements (text, logos, etc.) should remain at least 2" from this guideline.

### LOGO PLACEMENT (SAFE ZONE) —

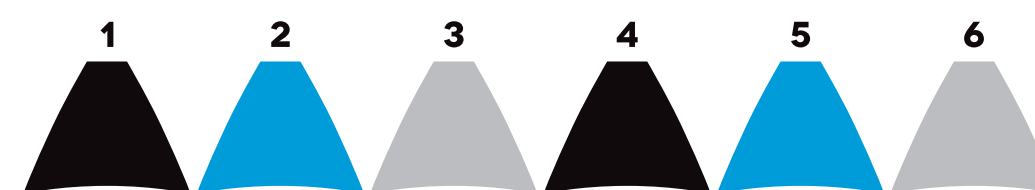

**INNER WHITE RECTANGLE** » 33" WIDE X 20" TALL

This is an approximation for your use in centering logos/images. All important elements (logos, text, etc.) should be placed no lower than 4.25" from the center of the bottom and placed no higher than 20" from the center of the top. Due to the sharp curvature of the Crown Gazebo top canopy, elements will be difficult to view from ground level if they are placed too high on the template.

If you are also preparing a **Crown Gazebo Skirt** and/or **Door** layout, please make sure to download the separate template(s) from our web site: [greatgazebo.com](http://greatgazebo.com)

### GAZEBO TOP CANOPY —

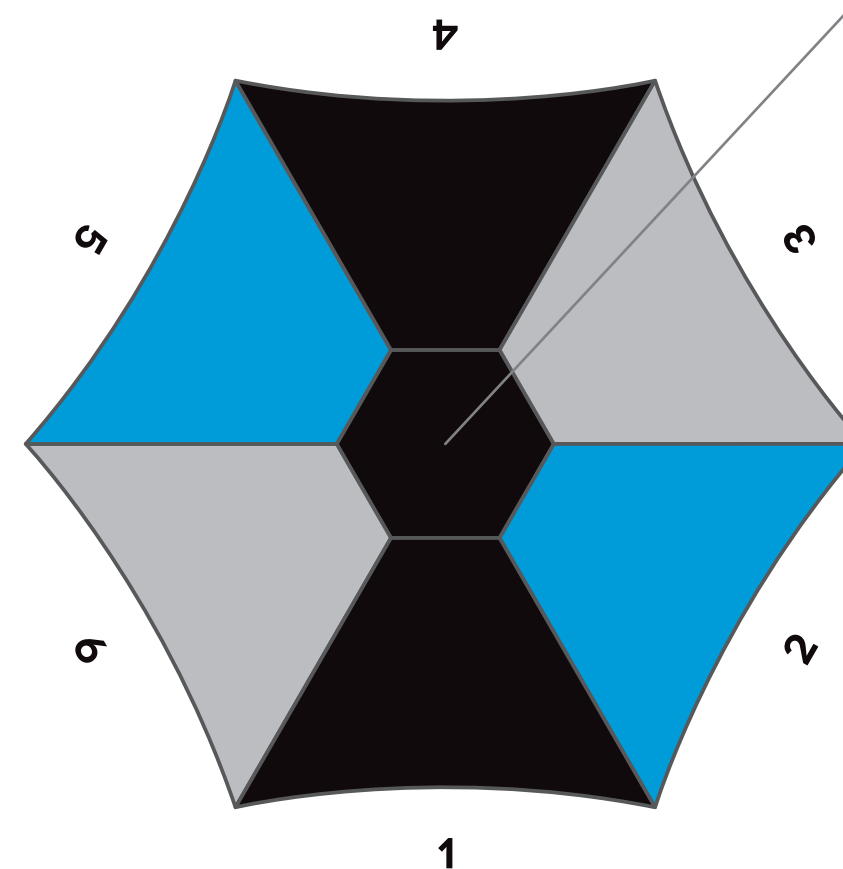

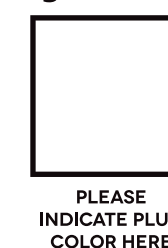

Each Gazebo Top Canopy is made of 6 panels stitched together in a dome-like configuration with a plug at the top. If you are submitting more than one panel design, please label the panels, as shown below, (1-6) in the order you would like them to appear when finished.

### TOP CENTER PLUG —

Located at the center of the top canopy, a hexagonal plug connects the six top panels. Though one cannot see more than the edge of the plug from the ground level, the plug will be printed in whatever matching or contrasting color you would prefer.

**Please specify a solid color in the box to the right.**

### DO NOT ROTATE OR SCALE —

PLEASE DO NOT ROTATE OR SCALE THE GAZEBO TEMPLATES FOR FINAL ARTWORK SUBMISSION.  
ARTWORK TO BE SUBMITTED AT 10% SCALE.

## COLOR/RESOLUTION

Our printer is closely calibrated to the **Pantone Solid Coated** chart. Use these spot colors for your submitted artwork. For raster images, please save them in CMYK format for the closest color match.

For the best and darkest black save all blacks as **C=20 M=20 Y=20 K=100**.

All digital artwork is printed 100 DPI (dots per inch). As this template is 10% scale, please be sure all placed/raster images are at least 1000 DPI at the 10% size, or 100 DPI at 100% size.

Text and vector images, such as logos, are sent with fonts as outlines or with font folder included (OpenType fonts only).

Please send all raster artwork embedded in the Illustrator/EPS file. We may need to make minor changes before production.

**REFER TO OUR ARTWORK REQUIREMENTS PDF FOR A COMPLETE LIST OF SPECIFICATIONS**
